

GCSE PHOTOGRAPHY YR 10 INTO YR 11

SUMMER HOME LEARNING

THEME: **IDENTITY**

Your next coursework theme will centre around photographing peoples faces and telling a story about them by editing images and manipulating the face.

TASK: Over the summer take as many photos on your phone (or using a camera if you have one) as possible to use in your editing in September. Photograph the following: **landscapes, cityscapes, natural forms, textures, graffiti** or even the **street the you live on!** We will be using these images to blend with portraits in school. You can see the inspiration below. Please ensure you have at least 30 photos to work with.
