

ENRICHMENT

WE CARE . WE CHALLENGE . WE COMMIT

Fulwood Academy is excited to offer a whole range of enrichment activities this year. Our vision, where we care, we challenge and we commit is offering these activities to support our student's development, both in and beyond the classroom.

Through **We Care**, students contribute to **civic engagement** by volunteering, supporting charities and making a positive difference within the local community. Respect for others, understanding different viewpoints and speaking up for important causes also connect strongly with **arts and culture** and help students become thoughtful, responsible citizens. Taking responsibility for physical and mental wellbeing supports participation in **sport and physical activities**, while caring for the environment links naturally to **nature, outdoors and adventure** opportunities.

Through **We Challenge** and **We Commit**, students are encouraged to build confidence, resilience and ambition. By working together, taking part in debates, campaigns and extra-curricular activities, and striving to achieve their best, students develop the **wider life and future skills** needed for success in school and beyond. Whether through sport, the arts, outdoor experiences or community projects, our vision ensures that every enrichment opportunity helps students grow, contribute and aspire to be their very best.

The activities on offer before and after school are shown on the next slide. Why not see what's on offer in Term 1 and Join the Club?
